Quick Change Propane Valve

Exchange your propane
faster and safer

Changing a Propane Cylinder can sometimes give the forklift operator a big surprise! The seal in the cylinder valve can fail causing liquid propane gas to spray over the hand or face of the operator faster than they can react. Liquid propane vaporizes quickly (-42 C or -44 F) and will cause extreme frostbite if it touches skin.

Takes just 15 minutes to install. It will last as long as the forklift!

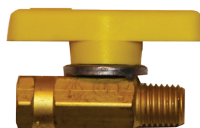

Propane Valve Closed:

Shuts off Propane Gas next to the coupler to prevent it from coming back through the hose if the seal fails. Since most Propane Cylinders are rented, the operator does not know the condition of the seals or age of the cylinder without a rigorous inspection.

Propane Valve Open:

Just turn the handle 90° and the valve is in the "open" position and ready to work.

Quick Change Propane Valve
QCV-90-G..... **\$60⁰⁰**

MASTERCHECK INSPECTION APP

DIGITAL FORKLIFT INSPECTION SOFTWARE & APP

A PAPERLESS INSPECTION FORM

Prevent 'pencil whipping' with digital inspection forms. MasterCheck is a forklift inspection app and safety management software enabling companies to comply with OSHA safety standards, identify and manage negative incidents, failures and potential repairs. By providing improved inspection compliance, it can aid in the prevention of mechanical failures, providing forklift operator performance analytics and early insights into imminent issues.

Product Features:

Supervisor dashboard:

Web-based dashboard providing high-level visibility and insights into operational performance & analytics, safety compliance, with access to powerful safety management tools and resolution center.

Customized inspection forms:

7 types of customizable equipment templates are included, or customize new forms to unique operational needs. (e.g. add, edit and delete items, add/change languages)

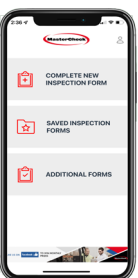

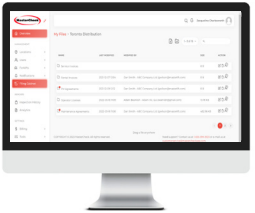

Real-time notifications & alerts:

Customize notifications & alerts to stay on top of safety compliance and any type of event or required action

Digital filing cabinet:

All inspections and reports are saved in the cloud with attached completed inspection images. Set up vendor portals for any documentation to be easily uploaded to the supervisor dashboard and readily available. (e.g. invoices, licenses, rental and service agreements, quotations, etc.)

Fleet analytics & insights:

Detailed analytics of historical data sorted by unit or operator and early insights into imminent issues (e.g. safety & performance issues, most common causes of failure, running time utilization, equipment & operator performance)

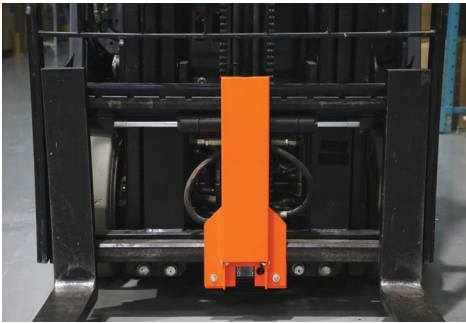

Annual price per forklift includes:

Unlimited Users and Inspections.....**\$39⁹⁹**

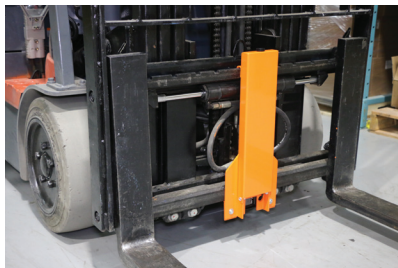

High Sight HD Wireless Camera System

The High Sight HD is the first reinforced all-in-one forklift camera system. The High Sight HD is a durable, metal encased forklift camera system that is IP67 rated for dust and water protection. The High Sight HD is also a fully wireless camera system, so no unnecessary cables are needed between the camera and the monitor. The High Sight HD comes complete with 9" LCD monitor, 40-hour battery pack, camera, key fob switch and carriage mount bracket.

The High Sight HD Features & Benefits:

- Quick and easy installation in minutes.
- No unnecessary external wiring, all components are hidden away
- All vital components are protected by a steel casing.
- Camera is IP67 rated for dust and water protection.
- Monitor can be installed on any 12-48 V truck
- Switch function turns camera off after 5 minutes of inactivity, saving the life of the battery by 3-5 times longer.
- All components can be charged within the casing or removed from the velcro for quick replacement.
- **WARRANTY: 1 YEAR**

The key fob function allows the operator to only use the High Sight HD when needed. Monitor view automatically turns off after 5 mins of inactivity.

CAMERA SYSTEMS

High Sight Wireless Camera System

The High Sight Wireless Camera System is an excellent tool to give the operator a variety of different views around the lift truck. The High Sight is extremely easy to install and operate and can be used in the front, back or anywhere around the lift truck where visibility is limited.

High Sight Features & Benefits:

- 7" or 9" LCD Monitor with 120 degree view angle camera
- Exceptionally clear picture
- Digital wireless system with built-in transmitters
- Automatic pairing capability
- Night Vision technology allowing visibility in low light
- Recording capability with the use of an SD card
- 7" or 9" display accommodates up to 4 cameras
- Built with water and impact resistant housing
- Can be mounted anywhere on the forklift
- Easy Installation and operation
- CAMERA VIEW CAN BE ROTATED IN 90 DEGREE INTERVALS

High Sight Kit Includes:

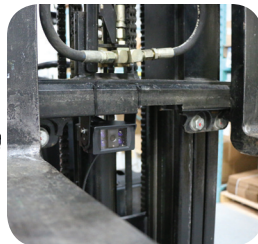

- LCD Monitor (7" or 9")
- Rechargeable Battery (21 hrs)
- Wireless Camera

Available Options:

High Sight Specs:

- LCD Monitor Size: 7" or 9"
- Power Supply: 12 - 48V
- Power Consumption: Maximum 6W
- Transmitting Distance: 100'
- Operating Temperature: -4 F to 155 F
- **WARRANTY: 1 YEAR**

CAMERA SYSTEMS

Proxi-Cam Proximity Alert System

Alert your forklift operators of nearby pedestrians and obstacles when travelling in reverse with the Proxi-Cam Proximity Alert System. The Proxi-Cam is available in a camera and 7" monitor model that produces a visual and audible alarm or the Proxi-Sense speaker only model that produces an audible alert for the operator. Each system includes two sensors with magnets and additional sensors are available (accommodates up to four sensors).

Proxi-Cam Features:

- 12 - 55V Operating Voltage
- Includes 20 feet of plastic cable sleeve
- Accommodates up to four sensors
- Detection range begins at 4 feet
- Audible alarm intensifies as pedestrians or object nears
- High Sensitivity Digital Radar produces low false alarm rate
- Detection angle approximately 70 degrees for each sensor
- Anti-jamming housing design with anti-interference properties
- 1 year warranty

Proxi-Sense With Speaker

Proxi-Cam With Camera & 7" Display

ITEM	DESCRIPTION	PRICE
PROXICAM-B	Proxi-Cam System with Camera and 7" Display	\$620.00
PROXI-S-B	Proxi-Sense System with Speaker Only	\$490.00
PRSENSOR-B	Additional Proxi-Sensor with Magnet	\$90.00

CAMERA SYSTEMS

Proxi-Cam AI Wired Camera System

Great visibility on a forklift can be challenging, and operators continually struggle to get a proper view all around the lift truck. Having to constantly look around the forklift to avoid obstacles, racking and pedestrians takes great effort for the operator and can be very stressful. The Proxi-Cam AI Forklift Camera System gives the operator a clear 170-degree view of what is behind them at a single glance. The Proxi-Cam AI includes one rear view wired camera looking directly behind the forklift, and two side view wired cameras providing the operator with a view of the left and right sides of the forklift. The Proxi-Cam AI 7" Display conveniently shows all three camera views at once on the screen with the rear view on the top, and the two side views on the bottom of the screen for the left and right. The display's AI feature identifies any pedestrians within view and alerts the operator with a visual box outlining the pedestrians on the screen, and an audible alarm when a pedestrian enters the blind spot trapezoidal areas closer to the forklift. The blind spot trapezoid lines that appear on the display can be lengthened or shortened depending on the size of the blind spot desired for each camera. The Proxi-Cam Alis easily installed and adjusted on the forklift with its plug and play wired design and the use of swivel brackets. Powerful magnets are also included to conveniently mount all three cameras. The operating voltage is 12 – 48V and both the 7" display and cameras are waterproof.

Features:

- Wired display and cameras with operating voltage 12 – 48V
- Includes (1) rear view camera and (2) side view cameras with magnets
- AI (Artificial Intelligence) enabled display detects and alerts for pedestrians
- Audible alarm sounds when pedestrians enter the blind spot trapezoids around the lift truck
- Blind spot trapezoids can be adjusted as desired
- All three camera views are displayed on the screen at the same time
- Waterproof 7" display and cameras
- Easy installation with plug and play design
- Operating temperature: -4 F to 158 F

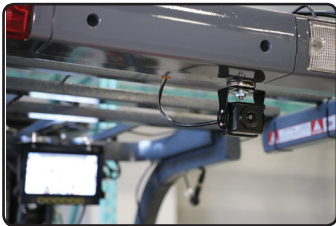

With all 3 camera's connected, the monitor gives the operator a clear 170-degree wide view.

With the AI feature enabled, the camera detects and alerts the operator of pedestrians.

Proxi-Cam AI Wired Camera System
PROXICAMAI-B..... \$950⁰⁰

MAGNETIC FORKLIFT ACCESSORIES

Magnet Tablet Holder

The Magnet Tablet Holder is uniquely designed to provide a quick and convenient way to mount a tablet or smartphone for a forklift operator. The two 100 lb test powerful magnets on the magnetic base allow the holder to be mounted anywhere on the forklift, and the double ball joint design provides excellent flexibility for a wide range of viewing positions for the operator. The tablet holder opening includes one spring loaded end, and one button release end that can securely hold a table or smartphone up to a maximum of 9.5" long or wide. The adjustable tension knob tightens and holds the two ball joints in place once the desired position is attained. (Tablet or smartphone not included)

- (2) 100 lb test magnetic base.
- Double ball joint design provides flexibility and adjustability for the operator.
- 9.5" max opening adjusts to fit all sizes of tablets or smartphones.
- Tension knob loosens or tightens the ball joints for quick adjustments on positioning.
- Durable and lightweight design means tablet or smartphone stays secure.
- Measures 8.25"L x 3"W at the base and 7.5" high without tablet or smartphone.

Kit Includes:
(1) USB-C Adapter
(1) Universal Charging Cable
(1) USB Double Charging Port

USB Charging Kit (Includes USB Port, USB-C Adapter, Universal Charging Cable.)

USBPORT-C.....\$35⁰⁰

Magnet Stretch Wrap Holder

- Magnetic mount includes (3) 80 lbs test rubber covered magnets
- Black plated steel construction
- Easily mounts on the forklift or on racks
- Secures a standard 3" core x 14" long stretch wrap roll to the forklift or rack
- Set of (2) ergonomic Hand Dispensers included

Stretch Wrap Holder

WRAPHOLDER-C.....\$85⁰⁰

Magnet Forklift Operator Fan

Operating a forklift can feel uncomfortable when the weather gets hot. The Forklift Operator Fan is designed specifically for forklifts and conveniently mounts anywhere on the overhead guard using two powerful magnets. The fan has a low-speed, high-speed and off switch to control the ventilation required and is equipped with a 7' power cord. It is powered with 12V DC and an optional DC-DC converter is available for 24-48V trucks.

LED LIGHTS

Great BLUE Warning Light

This unique "Great Blue" Pedestrian warning light shines a bright light 5 times larger than conventional blue lights! With 4 Phillips LED lights, it creates a Great Blue spot on the floor alerting pedestrians of oncoming forklift traffic.

- (4) 5 Watt Cree LED's
- 50,000 Hour Lifespan
- IP Protection: IP 67K
- Operating Voltage: 9 - 60V
- Operating temp: -40 - 75 C
- **Warranty: 2 Years**

*Includes Mounting Bracket & Straps for easy installation.

Great Blue Light
GBLUE-F..... **\$190⁰⁰**

*Volume discounts available on 25 or more lights.

Pointer BLUE Warning Light

The Pointer Blue Light projects a large, bright arrow on the ground 10 to 20 feet away in front or in back of the lift truck. This not only alerts the pedestrian of a nearby lift truck, but also indicates to the pedestrian what direction the vehicle is moving in. This can be very useful particularly around blind corners or trailers.

- (3) 3 Watt Cree LED's
- 50,000 Hour Lifespan
- IP Protection: IP 67K
- Operating Voltage: 12 - 60V
- **Warranty: 2 Years**

Pointer Blue Light
PBLUE-D..... **\$160⁰⁰**
Pointer Red Light
PRE-D..... **\$160⁰⁰**

Safe Space LED Pedestrian Warning Light

40% of all forklift accidents involve a pedestrian. Ensure pedestrians stay a safe distance away from the forklift with the Safe Space LED Warning Light. The Safe Space emits a red beam on the floor to keep pedestrians away preventing foot injury or collisions from rear end swing. The Safe Space combined with the blue spot light offers a complete pedestrian warning system for your warehouse. Creates a Safe Space around your forklifts.

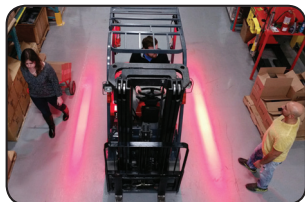

*Includes Mounting Bracket & Straps for easy installation.

- Operating Voltage: 9 - 64V
- Size: 6" x 2.25" x 2.75"
- Includes Mounting Hardware
- 100,000 Hour Lifespan
- UL Rated
- Easy Installation
- PC Lens Material
- **Warranty: 2 Years**

LED Versa-Light 450

The VL-450 Dock Light design offers the unique combination of complete trailer illumination, 85,000 hours of LED life and light output that is easy on the eyes. The LED Versa Light Dock Light features a multi-position flexible tube that resists dock door impact. The LED Versa Light Dock Light offers two critical features important for dock safety. The LED Versa Light fully illuminates the entire 8'x 53' area of a trailer, front to back, side to side and top to bottom.

- Specs:**
- 36"L, 120V, 57W, 3100K
 - 85,000 Hour Lifespan
 - Durable Protective LED Shield
 - Brightness: 2000 lumens
 - Adjustable/Flexible Tube
 - Built-in Cooling Fan

LED Versa-Light 450
VL-450..... **\$595⁰⁰**

Crescent Light Warning Light

The Crescent Light is designed to alert pedestrians of the rear end swing of the forklift. Multiple light configurations can be used for increased visibility and to keep pedestrians away from both the front and back of the forklift or to create a halo around the truck.

- 9 – 64V Operating Voltage, 21W (7 x 3W LEDs)
- 100,000 hour lifespan with 2 year warranty
- Polycarbonate Lens
- CE Rated
- Waterproof IP67 rated

Each Crescent Light includes hardware and mounting bracket for easy installation in a variety of configurations.

Line It Up Laser - Fork Guidance System

NEW Sleek Smaller Design!

Increase warehouse safety and productivity while reducing product damage with the Line it Up Laser - Fork Guidance System. The Line it Up Laser is equipped with an adjustable, fan-shaped laser beam that projects out from the forks indicating the exact fork position.

- Turns on only when movement of the forks is detected to prolong charging intervals
- Includes (2) lithium-ion battery with 110 Volt USB charger included
- Lasts approximately 1 weeks on a single charge
- Single model easily adapts to any lift truck and will fit on any class of carriage
- Easily mounts to the side of the fork using
- (3) powerful rare earth magnets
- Installs in minutes
- New ultra-compact, low profile design reduces chances for impacts with loads
- Available in **Red** or **Green** laser models.

FORKLIFT CAB ENCLOSURES

ProEnclosure Forklift Cab Enclosure

Whether you are looking for extra protection for outdoor operations or simply want to improve operator comfort and safety in your warehouse, the ProEnclosure selection of high-quality enclosures has you covered. Experience ultimate protection and comfort with the complete Toyota Forklift Cab Enclosure Kit. This all-inclusive kit includes doors, rear windshield, front windshield, and roof, providing a fully sealed enclosure for your Toyota forklift. Designed with precision, the cab enclosure components are crafted to contour perfectly with the frame, ensuring a secure fit. The components can be purchased individually or in sets. They are simple and easy to install with basic handtools and offer excellent visibility.

The front windshield is designed to provide unobstructed visibility and reliable protection for operators. The rear windshield features a two-piece design with latches, allowing quick and convenient disconnection of the lower portion for hassle-free maintenance. The roof is engineered to withstand challenging environments and shields operators from rain, snow, and direct sunlight. Equipped with gas struts for effortless opening and closing, the doors provide easy access to the forklift's cab. The sliding window enhances ventilation, while the internal and external door handles offer versatility and convenience.

Note: Shipping is included in the price to the lower 48 states

*Pricing Changes depending on Make and Model, contact us for more info.

FORKLIFT PROTECTIONS

High Alert Forklift Load Backrest

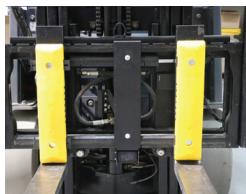

Collisions with the load backrest can cause serious damage, resulting in costly repairs. Protect your sprinkler systems, heaters, lights, racking, trusses and trailer roofs with the Load Backrest Alarm. By compressing the rubber sensor, the forklift operator is instantly alerted to stop lifting with the 106 dB audible alarm and LED flashing light. The High Alert Load Backrest Alarm is installed in minutes using two powerful magnets to hold the rubber sensor on the top of the load backrest. The alarm is powered by a 9-volt battery and is attached with a magnet. Available in various load backrest lengths.

- Easy to install with powerful magnets.
- Includes 106 dB audible alarm and LED flashing light.
- Audible and visual alarm alerts the operator to stop lifting immediately.
- Powered by a 9-volt battery.
- Long lasting sensor is made of a durable rubber.

ITEM	DESCRIPTION	PRICE

Bumper Buddy Forklift Bumper

Specifically designed for forklifts, these bumpers reduce damage in many applications. The Bumper Buddy attaches with two 100 lb magnets, and (VHB) two way tape.

Bumper Buddy attaches to 4" and 5" forks in seconds.

Bumper Buddy can bend 90° to wrap around corners for maximum protection.

Bumper Buddy protects both the truck and anything the truck hits.

Bumper Buddy Forklift Bumper (Yellow)

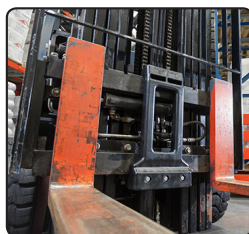

BUMPER-Y-E..... \$115⁰⁰ ea.

Pallet Dawg - Forklift Carriage Bumper

The Pallet Dawg is designed to take the hit and keep on working. Reduces pallet and product damage by redirecting a forklift's impact to center block of the pallet.

Features & Benefits:

- Reduces pallet damage by redirecting a forklift's impact to center block of the pallet
- Low profile impact bumper reduces product damage by avoiding contact with product that overhangs the front of the pallet
- Installed and can be removed in minutes with a socket wrench
- Compatible with any Class II forklift carriage
- Includes spacer plate to ensure a tight fit to forklift carriage
- High impact resistant nylon material
- Weighs only 7 lbs
